

SkillSphere Foundation

IMPACT REPORT

2025 to 2026 Impact Report

A youth-led 501(c)(3) bringing free business and technology education, and school supplies, to students in Delaware and Pennsylvania.

September 13, 2026

Delaware Secretary of Education Cindy Marten with SkillSphere's founders at the Dover Middle School campus, August 24, 2026.

Executive Overview

SkillSphere Foundation is a youth-led 501(c)(3) nonprofit founded by Delaware students Devkrishna Manappattu (Appoquinimink High School), Ridhun Gujja (Charter School of Wilmington), and Yashas Chittimalla (Newark Charter School). SkillSphere serves elementary, middle, and high school students, Business Professionals of America (BPA) members, and students attending underserved and Title I schools. We believe every student deserves access to practical education regardless of their school's resources or financial circumstances.

SkillSphere was created after recognizing unequal access to business, technology, and leadership opportunities among students. The organization was founded to provide free educational resources, hands-on workshops, and community initiatives that empower students regardless of their school's resources or financial circumstances.

What We Do

SkillSphere bridges the gap between traditional classroom learning and real-world skills through workshops, downloadable curricula, community partnerships, and direct student support initiatives.

- **School Supplies Initiative.** Collecting and fundraising for school supplies, then sorting and packaging them into kits that give a student everything they need for the school year, and distributing them to Title I schools across Delaware.
- **Free Educational Curriculum.** Free curricula, study guides, and practice tests covering business management, marketing, and financial literacy. Many of these resources are designed to align with CTSO competitive events, such as BPA, DECA, and FBLA.
- **Interactive Workshops.** Partnering with schools and organizations like Code Ninjas to host hands-on workshops that help students apply real-world business and leadership skills.

Our Impact

- Raised more than \$2,500 overall through donations, fundraisers, and sponsorships, including \$500+ raised specifically for the 2026 school supply drive.
- Directly impacted 200+ students and hosted six educational programs and workshops through community partners like Code Ninjas Pike Creek.
- Built a 12-member student leadership team spanning schools in Delaware and Pennsylvania, and began expanding operations into Pennsylvania.
- Launched a school supply campaign collecting more than \$4,000 worth of educational supplies, providing complete supply kits for students across 13 Title I schools in Delaware, with distribution coordinated through the Delaware Regional Dream Center.
- Delivered 45 supply kits in person at the Dover Middle School campus alongside Delaware Secretary of Education Cindy Marten.
- Became an official partner of the Delaware Alliance for Nonprofit Advancement (DANA).
- Formalized our partnership with Delaware BPA, making our curriculum an official preparation resource tied to BPA Open Events.
- Earned six news features across WBOC-TV, WMDT 47abc, Dover News Today, and Bay to Bay News.
- Received letters of support from Delaware Senate President Pro Tempore David Sokola and State Representative Michael F. Smith.
- Invited by the Newark Morning Rotary Club to present as an official speaker.
- Currently building a rigorous eight-module curriculum alongside Delaware BPA Open Events, including practice tests, study guides, and answer keys.

A Year in Review

March 2025	SkillsSphere Foundation founded.
October 18, 2025	Marketing Foundations workshop over Zoom. Students learned ethos, logos, and pathos, designed product flyers in Canva, and pitched them to the group.
November 2025	Fundraiser night at Chipotle Middletown.
December 7, 2025	Robotics workshop at Code Ninjas Pike Creek. Middle school students built and programmed driving robots using LEGO SPIKE kits.

December 2025	Double Good fundraiser, followed by our marketing competition.
April 2026	Fundraiser night at Tropical Smoothie Café Elkton.
May 2026	6v6 volleyball tournament fundraiser at the Charter School of Wilmington.
March to June 2026	Statewide school supply collection drive. Collection boxes placed at partner businesses, public libraries, and schools across Delaware and Pennsylvania, including Garnet Valley High School, alongside a GoFundMe campaign funding bulk purchases.
July 2026	Collected supplies donated to the Delaware Regional Dream Center for distribution to Title I schools.
August 24, 2026	Dover distribution. SkillsSphere delivered 45 packed supply kits in person to students at the Middle School of Innovation and the Middle School of Excellence on the Dover Middle School campus in the Capital School District. Delaware Secretary of Education Cindy Marten joined the team at the table, along with the district superintendent and other Delaware education leaders. Secretary Marten publicly praised the team's leadership and commitment to public service. WBOC-TV covered the event on August 24, and WMDT 47abc on August 25.

Spotlight Initiatives

2026 School Supply Drive

The 2026 School Supply Drive collected new and gently used materials and raised funds to purchase supplies in bulk. We placed collection boxes at partner businesses, public libraries, and schools across Delaware and Pennsylvania, and ran restaurant fundraiser nights and a GoFundMe campaign to fund bulk purchasing.

We raised more than \$500 for the drive, including \$420 from our GoFundMe campaign, and used the funds for bulk purchases. Combined with community and partner donations, this produced more than \$4,000 worth of school supplies. Those supplies were sorted, packed into complete kits, and distributed to students across 13 Title I schools in Delaware, coordinated through the Delaware Regional Dream Center and, for the Dover delivery, the Delaware Department of Education.

CTSO Curriculum Initiative

The curriculum initiative reduces unequal access to preparation materials among BPA chapters and students. Each curriculum topic includes a study guide, a 20 to 25 slide instructional deck, three practice tests, answer keys, examples, and review resources.

The initiative is built alongside Delaware BPA Open Events and is now an official Delaware BPA preparation resource. It is endorsed by the Delaware BPA State Officer Team, and we are working with BPA's National Secondary President on integrating the materials into a nationwide CTSO support system. FBLA and TSA versions are planned next.

The goal is to close the preparation gap between well-resourced and under-resourced chapters, so every competitor can prepare with the same quality of materials regardless of chapter size or funding.

Partners

- Delaware Alliance for Nonprofit Advancement (DANA)
- Delaware Business Professionals of America
- Delaware Department of Education
- Delaware Regional Dream Center
- Code Ninjas Pike Creek
- JEI Learning Center Middletown
- Serve and Supply Foundation
- Chipotle Middletown
- Tropical Smoothie Café Elkton

Future Plans

Over the next year, SkillsSphere plans to expand its impact by bringing more workshops and educational programs to schools not only in Delaware but also across Pennsylvania, while creating additional leadership opportunities for other motivated students seeking access to opportunities and resources. We will continue working with Delaware BPA to develop free educational resources and expand our curriculum to organizations such as FBLA and TSA in the near future.

We have also opened our chapter program, so students at any school can start a SkillsSphere chapter and receive our workshop plans and study materials.

To support our impact, we are continuing to apply for grants, sponsorships, and partnerships that will let us offer more free workshops, expand our school supply drive, and make sure what we give to the community remains accessible to all students.

Funding and Partnership Opportunities

Support from businesses, foundations, and organizations allows SkillSphere to continue providing all of our educational programs free of charge while giving back to our community through drives.

Funding directly supports

- Student workshops and events
- The expansion of our annual school supply drive
- Student leadership development
- Curriculum development
- Technology resources

Requested support

- **Program funding or sponsorship:** support for free student workshops and educational programming, curriculum development and printed student materials, donations of school supplies, printing, or venue space.
- **Strategic support:** a brief letter of support for grant applications and school partnership proposals, introductions to schools, districts, foundations, education organizations, or corporate community teams, and permission to reference your guidance or support using mutually approved language.
